PROFESSIONAL EXPERIENCE

FRONT END DEVELOPER
EGM AI CONSTRUCTION | NOV 2019 - FEB 2021

- Worked on building an internal dashboard using React and Next.js to track project costs and profits of 60+ construction projects
- Collaborated in an agile scrum environment to implement new feature developments
- Developed a project visualization tool in the form of a Gantt chart

FRONT END DEVELOPER
ELEVATE AB | AUG 2020 - PRESENT

- Built an application listed on the Shopify app store from design to development
- Utilized the Shopify API to handle making functions for the applications core functionality
- Deep understanding of Shopify liquid in order to know how to navigate adding code to merchant themes

FRONT END DEVELOPER
OUTCLASS INC | MAY 2019 - NOV 2019

- Developed a production-ready React Native app that used a NoSQL database, user authentication, Graphql, and a Node.js backend
- User base scaled above 30% of the target market and utilized a server-less AWS architecture with Stripe and Paypal integration

PROJECTS

HOMEDECOR   bit.ly/homedecor10

- Built a modern responsive ecommerce site that is fully functional with React and Next.js.

SHOPSPACE   bit.ly/shopspace10

- Built a modern responsive landing page called Shopspace using React and Next.js.

EDUCATION

BACHELOR OF SCIENCE, MAJOR IN FINANCE
UNIVERSITY OF RUTGERS
